Trung Q. Duong
Neff Ave
West Covina, CA 91790

Dear,

I would like to express my appreciation for U.S. Investment Services (“USIS”) who has exhaustively supported the preparations and filings my family’s EB-5 applications. The results were unimaginable – successful attainment of lawful permanent residence statuses in the United States. For that, I’m thankful for finally being able to reunite with my mother in the U.S. after five years of separation.

Throughout the process of preparing our applications, USIS’s management and processing teams have partnered and corresponded with a great network of attorneys and staff in the U.S. to ensure our EB-5 petitions were thoroughly complete, reviewed, and qualified. To that end, I would like to direct special recognitions to the USIS team consisted of their leader, Mr. Chris Dao, CEO and Chairman of USIS, as well as their professional business team, all of whom have worked hard and continued to work so diligently on assisting their investors prepare their EB-5 applications on an individual basis.

Filing an EB-5 investor’s petition is a complicated process that requires much attention to details, from providing proof of lawful source of funds, tracing those funds, to selecting the right project for their investment. To that end, USIS is experienced in providing consultation and direction on many crucial aspects of EB-5.

In my understanding, it is USIS’s true vision to provide not just a service, but a long-term solution to enhancing what many of us refer to as the “*quality of life*.” For the purpose of this testimonial, perhaps it is finally reasonable to conclude that the limitations to our imagination of a “*better life*” have been further extended by the “*convergence of government policies and business realities*.”

Sincerely yours,

T. Q. Duong
